

Diagram illustrating the MC7 Secondary Beam Dump Base structure and associated safety features:

- SS #1**: Safety Stop #1, located on the left side of the structure.
- Hatch**: Located on the left side, below SS #1.
- MB7*** stand alone**: Three locations marked with red circles, indicating independent safety stops.
- MC7 Secondary Beam Dump Base**: The central structure, featuring a grid pattern.
- Padlocked with OPS lock on MC7 side of Hatch**: A note indicating the hatch is secured on the MC7 side.
- SS #2**: Safety Stop #2, located on the right side of the structure.
- Hatch**: Located on the right side, below SS #2.
- MB7*** stand alone**: Two additional locations marked with red circles.
- SS #3**: Safety Stop #3, located at the bottom center of the structure.
- MB7*****: A red circle marking at the bottom center, near SS #3.
- Diagram A**: A detailed view of a component, likely a beam dump, shown below the main structure.
- Diagram B**: A detailed view of a component, likely a beam dump, shown to the right of the main structure.
